To the Family of Dolores I send my thoughts and prayers. She was a wonderful lady who loved to help others in need. She was also a talented poet and I am honoured to have her poetry on my website. She will always be with us in spirit keeping watch over her loved ones as she did in life! God Bless you all and thank you Kelly for signing my guestbook to let me know of your Mother's passing. I have lost a friend and fellow poet but she shall forever live on in my heart!##imported-begin##Yvonne Legge##imported-end##

I am so sorry to hear of Dot's passing. I never met her in person but have talked to her via countless emails on our genealogy research on the Ryan family last summer. I am too a descendent of the Ryan clan that she was researching. Dot took the time to share with me what she had for which I am forever grateful. May God bless you and take comfort in knowing that she is in now in Ryan Heaven with all her ancestors.##imported-begin##Paula Collins##imported-end##

To the Rutlands:I was shocked to see the paper this morning and learn of Dot's passing. As I thought back to 30 years ago, I remember my first high school job and working with Dot. She was a wonderful co-worker and friend; she always had a smile on her face and a positive attitude about any "life circumstance". She taught me a lot about life. I remember buying my first and second Kirby Vacuum cleaners from your dad,Kirby's are all I have ever owned by the way. I remember your mom sending me over to your Grandfather Ryan's repair shop when my lawn mower was broken. I remember lots of funny stories about Kelly. I remember when Dot made Cindy a dress for the Athletic Banquet. I remember that Dot Rutland was a true friend. I remember a lot of neat and fun things about Dot Rutland - but most of all I remember how very much she loved her family - each and everyone of you! While Dot is no longer here, the lives that she touched and the memories that she left behind will be with us forever.I am so glad that she touched mine.##imported-begin##Susan Berry##imported-end##
