To know Ken, is to know a great, kind, and caring man, whom has touched so many lives and left an imprint behind in every step he took in his life. To me he was more than a Boss and co worker he was a mentor and a friend. I strive to please him to make sure I would not let him down. I looked up to him and respected him in so many ways. Unspoken words as we go about our day. Never thinking about telling the ones we hold dear how much they mean to us. I don't know if he every knew just how much he ment to me. Ken was a great boss and to know him was my honor. He has helped me to believe In myself and know I could acheive great things, and with that I will alway cherish him. You may leave this earth but you will never leave the hearts of so many people whom love you. Terri my heart goes out to you and your family. I hope you can find comfort in knowing your husband will never be forgotten and will always be held dearly to so many people's hearts. we love ya all Felisha Coleman and Family
