Uncle Keith was one of the most kind, generous and interesting people that I have ever known. He knew a lot about many different things and he influenced Duane's interest in electronics and mechanics as he was growing up. As our three boys were growing up, they loved being around Uncle Keith to hear him talk about old cars or any other subject that they wanted to talk about. We always loved the sound of his voice and his laughter and he always had something interesting to talk about. We love you Uncle Keith and we will always miss you.##imported-begin##Lois Plant##imported-end##
