“ Healing prayers for all of you. You are her treasures! Our friendship goes back for at least 53 years. It was friendship that became Family!! There are so many memories of camping trips, vacations together, many nights spent playing cards. Many of those sitting under the stars with hot rocks rolled under the table to stay warm!! Sometimes, we may not get together for a year or more, but it didn't matter. We have had good times and bad times, and I will always treasure the love she put in my life!! Till we meet again!!!
